

# Healthy - Intelligent Fibres from Thai Acrylic Fibre

Amicor is a group of HEALTHY fibres with anti-fungal and/or anti-bacterial qualities.

When blended together with other fibres you can create different benefits to suit different end-uses. Each of these benefit groups are clearly supported by our group of sub-brands

At Amicor, our mission is to provide healthier products for every day lives, which actively prevent dust mites, allergens and Harmful bacteria. We strive to lead the way in innovative product design and internationally approved testing as well as peer group reviewed clinical trials, designs to ensure the complete safety and effectiveness of products that carry the Amicor brand name.

We see a long term Healthy Future ahead...
